-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

On January 24, 2007, an Office Action was sent to the Applicant rejecting claims 1-11, 14-16, and 19-20. On April 16, 2007, the Applicant responded with arguments.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11, 14-16, and 19-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Koetke (2004/0098478), as set forth in the previous Office Action.

#### ***Response to Arguments***

Applicant's arguments filed April 16, 2007 have been fully considered but they are not persuasive. The Applicant argues that Koetke does not disclose set of information stored in a database coupled to each hub, wherein the set of information is owned by business entities relatively proximate to each said hub; regional authorities controlling access; program coupled to each said hub that distinguished between simple tasks and complex tasks; server dedicated to performing simple tasks and server dedicated to performing complex tasks; sending message requiring processing to a heavyweight server, wherein said message requiring processing is processed; sending message not requiring processing to a lightweight server, wherein said message not

requiring processing is sent to a user; a division of said set of information between said hubs is stored in each said hub's database; or first regional authority requests instructions for obtaining data under the control of the second regional authority. In response, Koetke discloses set of information stored in a database coupled to each hub, wherein the set of information is owned by business entities relatively proximate to each said hub (information stored on hubs that interacts with client servers, peers or combinations thereof—p.3, 33); regional authorities controlling access (controlled by programs controlled by client servers, peers or combinations thereof—p.2, 32 to p.3, 33); program coupled to each said hub that distinguished between simple tasks and complex tasks (performs particular tasks with the server to control simple and complex tasks—p.2-3, 32); server dedicated to performing simple tasks and server dedicated to performing complex tasks (servers for performing simple and complex tasks-p.12, 158); sending message requiring processing to a heavyweight server, wherein said message requiring processing is processed (heavyweight server-p.12, 158); sending message not requiring processing to a lightweight server, wherein said message not requiring processing is sent to a user (lightweight server-p.12, 158); a division of said set of information between said hubs is stored in each said hub's database (p.2, 32 to p.3, 33); and first regional authority requests instructions for obtaining data under the control of the second regional authority (interaction between client servers, peers, and combination thereof—p.3, 33).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
